Could you be my man (x2)

In your life, by your side
I need it day and night
Feelings come through my mind
I'm wonder if you're kind

Make me feel the flow
I wanna go low
Take me nice and slow
I wanna go low

Could you be my man,
Love me well, treat me right
Can you prove me that
You can stay by my side (x2)

Could you be my man (x2)

Make me feel the flow
I wanna go low
Take me nice and slow
I wanna go low

Could you be my man,
Love me well, treat me right
Can you prove me that
You can stay by my side (x2)

Could you be my man (x4)

Make me feel the flow
I wanna go low
Take me nice and slow
I wanna go low

Could you be my man,
Love me well, treat me right
Can you prove me that
You can stay by my side (x2)

Could you be my man,
Love me well, treat me right
Could you be my man. (x2)
