I'll just try to keep it quiet; ill just whisper in your ear

Ba da ba pa ba da ba da da  
Ba da ba pa ba da ba da da  
Ba da ba pa ba da ba da da

When I'm near you, I get a hunger,  
It's not a sex spell you put me under.  
It's in my heart dear, that bleeding muscle.  
That's where I'm hard for you. I'm so emotional .

You give me an emotional boner.  
You give me an emotional boner.  
You give me an emotional boner.  
You give me an emotional .

When I talk to you you're not afraid of hell.

You know just what to say; you break right through my  
shell.  
Never kissed you; afraid to go there.  
I'm just standing here. Like a loner .

You give me an emotional boner.  
You give me an emotional boner.  
You give me an emotional boner.  
You give me an emotional .

When I dream of you, it's in the afternoon.  
We're together now flying round the moon.  
My deepest fantasy is that you're holding me.  
And what I really know is you're not letting go.

You give me an emotional boner.  
You give me an emotional boner.  
You give me an emotional boner.  
You give me an emotional .
