This is the night when the world crashes down  
Nowhere to hide the evidence is all around  
I told you I won't ever let you go  
I'm waiting here, I'm stitched into your soul  
Now I wonder how it ends  
Crawling under again  
Now I wonder

Please,  
Hold me the way, you do

I'm a shadow on the wall by your side  
Here to watch the night while you cry  
I'll wait here for you I won't let you down  
I swallow your tears while I hold your crown  
Now I wonder how it ends  
Crawling under again  
Now I wonder, please...

Please,  
Hold me the way, you do  
the way, you do  
the way, you do
