"Sleepwalker"

wide awake, in the dark
not alone here, the shadows talk.
in my world, i create
my memories, to keep my faith.

(chorus)
unconsciously, i rise above the night
lost control, im reaching for you
paralyzed, i fight to save my life
im half asleep, i cant relate or contend with you

i changed, for you
i tried, to find myself.
in my world, its blue
im contagious, infected with gravity.

(chorus)

(you can run but you wont get away)(repeated)
its too late
im paralyzed inside
if you wait
its bound to find you too

(chorus)

Im a sleepwalk, a sleepwalk, a sleepwalker! (x4)
