"Take My Future"

Visit "[Take My Future](#)" on MotoLyrics.com

Prisoner awake but cant escape
These walls and world that you misshape
Chosen time, I wonder why
You make me feel like I do

I'll follow you to the ground, cant live a night without
you
I'd never let you down, I'd stay with you forever

Justice will rise above the sun
Teach us to lie for what you've done
Disarm him
Control them
And take the universe
swallow like a pill

I'll follow you to the ground, cant live a night without
you
I'd never let you down, I'd stay with you forever

Don't run so far
You can't see tomorrow
Take my future
Away from me
Away from me

I'll follow you to the ground, cant live a night without
you
I'd never let you down, I'd stay with you forever
