"Can We Fly"

Visit "[Can We Fly](#)" on MotoLyrics.com

Can we fly
Is it merely what this world thinks
Can we fly without wings
Can we fly over seas and over skies
Without wings can we fly

Someday when dragons fly
I'll believe there are dragons
And someday my mama would know that times are
getting modern
And someday the world's gon' be exactly how I want it
but only then
Only then

I'll fly, fly away
Fly away(x3)
I'll fly, fly away
Fly away(x3)

Can we soar pass pain into oblivion

Can we soar without wings
Can we soar over seas and over skies
Without wings can we fly

Someday when walls bow down
I'll believe there's power
But only then, only then

I'll fly, fly away
Fly away(x3)
I'll fly, fly away
Fly away(x3)

There is this one thing that holds us back from
everything that we can find'
It's called the mind
Through every season and every snow
I hope you realise it's you that hide the glow
Then you can fly
