"September Love"

Visit "[September Love](#)" on MotoLyrics.com

September love what have you done to me?
I cannot find democracy
I'm selfish oh and ignorant but I don't care
I drink empty champagne glasses
To full fill all my promises
Through sickness and health for better for worse,
September

My momma most have been drinking why she made
me in September
It's cold and has too much shy
Oh why oh oh why in September
My momma must have been drinking why she made
me in September

Silver and gold
The beautiful and the bold, diamonds and pearls
They don't really get old
But summer's gone, the ber's stepping in but I don't
care
I'm about to take off in the flyest spaceship
One that comes equipped with all the jewels in it
And althought it's shy, it's love still is mine September

My momma most have been drinking why she made
me in September
It's cold and has too much shy
Oh why oh oh why in September
My momma must have been drinking why she made
me in September

September(fading)
