One time
One world
Two times
One love
Three times
Rewind
'Cause I'm a dedicate this song to everyone of God's
children

Come as you are
Come just like you be
It's the bumps and curves of our history
But no blocks in the road that we can't traverse
And no wounds from the past that can't be nursed

All hate gonna dissipate from our fate
No check, together we got a checkmate
All hate gonna dissipate and fade away
To make room for a brand new day

We got one world 'til it's time to fly
We got so it's one love 'til we say goodbye
We got one world it's enough to share
Til we're called home and we're caught up in the air
we got

One world
I'll look out for you, you look out for me
One world
Together we can be perfect harmony
One world
I'll look out for you, you look out for me
One world
And I'm a dedicate this song to everyone of God's
children

One world oughta be more than enough
And if it's not, is God looking in pure disgust?
Wondering what the dilly with the silly I see?
When I made each of these in the image of me
Everyday is a chance for a new stance

Like every song is the beginning of a new dance
And everyone of us was made to reflect the light
And glorify the most high so bright
We got one world 'til it's time to fly
So it's one love 'til we say goodbye
We got one world it's enough to share
Til the king calls us home and we're caught up in the
air we got

One world
I'll look out for you, you look out for me
One world
Together we can be perfect harmony
One world
I'll look out for you, you look out for me
One world
And I'm a dedicate this song to everyone of God's
children

You can come as you are
Love is yours
Love is ours
I am a witness
Sweet forgiveness
You will shine like a star
Burning bright where you are in our one world, one
world
Like a star, like a star, like a star

One World
Like a star, Baby
One World
And I'm gonna dedicate this song, dedicate this song

One world
I'll look out for you, you look out for me
One world
Together we can be perfect harmony
One world
I'll look out for you, you look out for me
One world
And I'm gonna dedicate this song, dedicate this song

Lets come together and love, Lets come together and
love, Lets come together and love, Lets come together
and love, come together
