"Love One Another"

Visit "[Love One Another](#)" on [MotoLyrics.com](#)

We spoke with the tongues of angels
But we didn't have love, no we didn't have love
We had faith that could move any mountain
But it wasn't enough, 'cause we didn't have love
We had wings but we did not fly
We had vision but we didn't have sight
Can we forgive, so the whole world can live
CHORUS

Love, Love one another
Leaving the past, believing in the power of love
Love one another
'Cause we're all in this together
Love one another
No one would live forever
If it wasn't for love, God's love
No one would stay together
If it wasn't for love
Disillusioned by the stained-glass sea
But there is truth for those that hope and believe
Now I can see, that the greatest of these is love
CHORUS
Love one another
Leaving the past, believing in the power of love
Love one another
'Cause we're all in this together
Love one another.
