### "Another Knight"

Visit "[Another Knight](#)" on [MotoLyrics.com](http://MotoLyrics.com)

could have been a princess, crown out of thorns  
pretty little summer dress, fabric is torn  
you got my interest and when i see you  
i wanna free you, bring you  
out of everything, trouble in your life  
but its your kingdom, and im just another knight x2  
she fell asleep in the passengers seat  
so we turned up the music, hit the automatic unlock  
tapped the gas, took the corner too fast  
put her ass out and left her on that black top  
you know that dream you have when youre falling  
but you always wake up before you hit the ground  
it was like that, except her body went smack  
took a minute to figure out what just went down  
so she stood up, she brushed herself off  
she hurt, but nothing felt broke  
she gave a little laugh because gods a comedian  
always surrounding her with all these jokes  
she looked around, she knew where she was  
walked a few blocks and hopped on a bus  
went back to that street that they nicknamed hell  
to go manifest a couple more stories to tell  
and i still cant figure out why she aint figured out  
a better way for her to use that cute little mouth  
between the jons and the jakes  
how long will it take for her to clean her front lawn of  
these snakes  
anyone of us could have loved her  
anyone of us could have been her father or her older  
brother  
hold her, until she discovers the light  
besides the one at the end of a tunnel, another knight  
could have been a princess, crown out of thorns  
pretty little summer dress, fabric is torn  
you got my interest and when i see you  
i wanna free you, bring you  
out of everything, trouble in your life  
but its your kingdom, and im just another knight x2
