it means a lot for brothers like me to be succesfull
handlin business managin things i know thats stressfull
provide intellect and guidance through out the mental
violence in the industry, nothing is what its ment to be
i calculate facts by visual prospect
common sense and niggaz in the mix thats why my
context
is fully established, its invalid for me to fall
fuck record ratings, Rhyme Sayers can do it all
we install wisdom in the product, before we let it go
and any other bullshit is hypothetical
so im inscribin music to keep you vibin
lyrics over phat tracks A.N.T. be providin
so hide when you see this twin cities roma
appear on the spot with a bottle of arizona
coolin out relaxin holdin a war
with one hand on my balls, never showin tenticle flaws

life, love, stress, and set backs
life, love, stress, and set backs

for those tryin to breath, show me where your heads at

life, love, stress, and set backs
life, love, stress, and set backs
life, love, stress, and set backs
for those tryin to breath, show me where your heads at

arise daily to the sun rays, and hear about gun sprays
on television, children on Montell Williams
im bein displayed as cavaties in the community
cops they wanna ruin me, what the fuck can they do to
me?
no longer hustlin to make a fast dollar
god rented me talent, now i use it to the rock the
microphone in the studio with the A.N.T.
fuck the people who think im slackin cause thats the
way it be

sometimes im thinkin to myself, should i face it,
black people can only sports and entertainment
but fuck that, cause thats a low lifes motto
even though the twin, dont got the problems of
Chicago
but who wants that shit?
brothers with sense all the
cause black cultures more than selling drugs an house
parties
really we aint got no culture
took advantage of em,
cause some of africa
dont even like black americans

im chillin at the crib drinkin ice tea
then my cousin knowledge MC calls up to invite me
to do a freestyle take
stresses in the coats
while we grab the microphone and blast those who get
it straight
this is how its done, children, of david son's
tryin to put the family piece together, to make it one
so i vibe and strive with pressure
becomes a applied to the self esteem
seems that wealth is just a dream
but i know im able
so i refuse to let the day go
fly without progress
shit pay so why stress?
i know i got talent to do this
so maybe later on ill be a, collegiate student
illegal movement, is not the life i wanna lead
just cause children of all races are sufferin from greed
love my seed
so i feed on wisdom
it takes the balls ya
so we never falter
and black culture
