I peep rap city high like to my eyesight
Witnesses bitches and kids frontin to bring a shit
You get nothing from this write redundant to bring the
dumb shit
I neva half ass my blast leaves you overcome-ed
The basement aroma should have waited for you're
diploma
Instead you dropped out now you grabb the
microphone ta
Let the fox out a box out the center
Rippin to end your agenda 'cause im the microphone
binga
Since you started rhymin you been barred from flyin
Trying to push me to (peat)? I didn't buy your tape
'cause pussy is cheap.
Pushing me deep so i brush it to fuck it.
You get busted to rubbish because my stuff is
conducted.
On some thouroughness that fuck the world shit don't
make it happen.
You roll without friends but that sure don't attract them.
The five man travelin band i stand saggin my pants
Caramel skin color the slim brother.
I cancel and contort your financial support
AnRs ridiculed for havin thoughts to deliver you
Give your crew brain lacerations.
Your having dreams about stardom is only fame
masterbation
My name is has awaken the criterion
So judgement is passed anyone budes i blast
Bust in that ass and got class for the clone
Brothers need to relax strait to the back like domes?

Where you at to all the bad heads with the word
Where you at and if you getting fed by the herb
Where you at and all the brothers keeping shit tough
Where you at and others talking shit about us... bitch

No excuses i feel that there's none needed
I know that you resent me 'cause i study how im
greeted.

Im quick to touch the mic for the rep and for the loot
Im known around my village as the mouth that likes to
shoot

Now i no longer have time for your irrelevance
Because the ignorace is just as dangerous as the
intelligence

Its all about the passege im trying to grasp it
And hopfully my son will forgive me for my habits
I manage to pity those flavorless with shitty flows.
Amped of their camp actin out their favorite videos
Save it give me those trophes you call balls for my
display case

Now walk away and save face fuck the beef even you
belive it aint needed

I know that deep down you respect me 'cause you
study how im greeted

Its sewing up seams, it's pluggin holes,
Slug knows it's takes more than toy flows and a b-boy
prose

See, he keeps it clear and he strikes the fear
And he caught a grammy for marketing strategy of the
year

Where oh where is the server current status MCs need
to take their bras off an burn them.

Where you at to the ones in the front with their hands in
the air like they just don't care

Where you at and for the kids in the back tack-fully
surveying the stage to see whos wack

Where you at and to the ones that grab the mics at
shows house partys or by themselves (goahead get
your flow on man)

Where you at and for that kid crawling out of bed at
night putting fame on trains bus benches and stop
lights

Lavish il never have it i get to happy doing atmospheric
damage to your amaturish madness

Lavish il never have it i get to happy doing atmospheric
damage to your amaturish madness
