(Slug):

Head, pressure, senses, clutched
Date, Divinity, wouldn't, fuck
Touched, hazy, God, change
Rush, floor, life, veins

Chorus:

From a head full of pressure rests the senses that I
clutch
Made a date with Divinity, but she wouldn't let me fuck
I got touched by a hazy shaded, God help me change
Caught a rush on the floor from the life in my veins

(Slug):

It goes one for the cannabis, and two for your
dianoetics
Three for your reasoning, and four for those that try to
get it
Five for your love, and six for the stress
And seven for the day that I climbed into this mess

CHORUS

(Slug):

I'm catching ulcers from the child proof lighters
And all these fine tooth biters that keep the wires in my
head tighter
I'm tired out by the distances achieved walking in my
sleep
Floors got shifted since the high i got a tad too deep
Ask dad to keep cool, I'll call him back as soon as I
resume normal
And get out of this bathroom
And call management to seek some reimbursement
For the nerve ending that burnt from the first hits

CHORUS

(Slug):

So fuck needles, fuck smoke
Fuck lines that make the sinus choke

Fuck chasers, trails, fuck waves and rails
Fuck hang-overs, fuck hallucinations
Regurgitations, mandatory sentences and UA tracing
Blind my insight and dull the common sense
Give me inner vision, kill the superstition and the
confidence
Built the tolerance, now it's more that I consume it
When it boards up my room, the world's whores will
croon in unison
Unify the eulogy, autopsy pages read euthanasia, I.E.,
irony
But here I be within a pool of my drool
Sedated, windows dilated, comatose, life overdose
Tell Jacob Miles to keep it wild style
I promise I'll smile
And check the floor, God's got nice tile
Tell Jacob Mile to keep that shit wild style
And I'll smile
And check the floor, God's got nice tile

CHORUS

(Slug):
Head, pressure, senses, clutched
Date, Divinity, wouldn't, fuck
Touched, hazy, God, change
Rush, floor, life...
