[Woman singing]

You can hear the clock inside the ticking and tocking

[X7: fading out]

(Man speaking)

So you see sir, my deck of cards serves me as a bible

An almanac... and a prayer book

My friends this story is true

I know

I was that soldier

[Slug]

I use to know this kid named Jesse

He could get wild on the mic but his lifestyle was sketchy, Always messy

You could catch him on the corner of 19th and 3rd

Until the cops caught him first, with pockets of rocks and herb

But there was once this cat name Ivan, he was the man

Get the digits from your bitch before you could say pussy diving

Driving home drunk from the front one night

He tied his '84 Tempo round a street light

Me and Mike

Remember that scary chick Caroline

Very careful when you met her cause you knew she fucked with heroin

Mother of two, no one knew, because the twins stayed with her mom

But when they finally found the bitch still had the twist round her arm

Shit, I can't forget about that big kid Gino

Fucking diesel, do damn near anything for a seno

His older sister talked his twisted ass

Into killing Steves girl so she could get with Steve faster

Oh yea, speaking of Steves girl, the one that Gino killed

Her name was Phadra, she use to stand on tables down at Deja

Tits and clits and car payments and rent and emcee seek tuition

[Chorus]

And this goes to those of y'all that wanna fuck my girl
Or be down with my crew, or be part of my world
Be leary of what you wish for
Cause it's more than rhymes and good times behind
this door

Oh yo yo-yo-yo-yo yo

I know this kid named Moses

Use to buy all the tapes and say that Headshots was
the dopest

When up for raping a chick in a mall parking lot

Now I hope he gets a dick and broomstick in every
orifice

Free Love

That's what Heather use to say

But when I took her up on it, she said that she was gay
Well, wait a minute, why you shake your ass to any cat
with a link

Looked me in me eye, smiled and said Free Drinks!

My man Todd had a tight studio up inside his home

And if you had some coke you could come and bless
the microphone

Starting selling equipment to fill the pipe

Fuck this life, Todd hung himself with a cord from that
mic

Cynthia wanted to travel, drive around the country

Left the city on a journey, came back with a junkie

He use to beat her, if it wasn't physical it was mental

He didn't leave her until she tried to stab him with a
pencil

That kid Jay he was a thief, stole bikes and cars

Use to get real high and try to drive to Mars

One night got hot while approaching a road block

Shut his eyes, hit the gas and ran right over a cop

Damn!

And this goes to those of y'all that wanna fuck my girl

Or be down with my crew, or be part of my world

Be leary of what you wish for

Cause it's more than rhymes and good times behind
this door

It's the blood clot blues, the gun-shot wounds

The needles and spoons, doomed from the womb til
the tomb

For whom the bell tolls, this will pay for the toll free
calls made

Underage, she said that Jesus gave her AIDS

Now and days the life of fuck follows folks

In my city and some flip their trucks over center

meridians

Some do their drugs to float above the stress
And some overdose so they can finally rest
Many walk around like they blind to the mishap
Talk-show gospel, smell the tic-tacs and Simulax
Six pack to make the good and bad balance
Walking tall is a gift and steady breathing is a
challenge
Adaption, domesticated bitch to your surroundings
You quit singing along but the ball kept bouncing
Now we keep to self and step over the vermon
Found me sleeping in a pool of my own sweat and urine
I'm determined to find a path so I can leave you all
I miss the rise and I ain't trying to see the fall
So this goes to those that trying to rest in peace
Save me a seat and we'll play chess when I get
released

And this goes to those of y'all that wanna fuck my girl
Or be down with my crew, or be part of my world
Be leary of what you wish for
Cause it's more than rhymes and good times behind
this door

These are people who tried, tried
These are people who tried, tried
These are people who tried, tried
All my friends, they tried...

[Man speaking]

So you see sir, my deck of cards serves me as a bible
An almanac... and a prayer book
My friends this story is true
I know
I was that soldier
