I had a rough day but that's life it happens
Woke up on the dark side of my mattress
I guess I forgot to set my clock
Overslept so almost lost the job
Then to top it off I'm kinda hungry
But can't eat til I find my money
It's in my wallet but my wallet ain't in my pocket
Can't remember the last time I saw it
And they don't want me in a bad mood
Afraid that it'll spread and everyone'll catch an attitude
They got 'em all singin the same song
Thinkin I should go and start a fire in the break room
Coworkers make me sick and the manager really ain't
shit
But I can't quit so I'm hidin in the basement
Holdin on to my face like fuck this place

Everyday can't be the best day
Do what you can right now, don't hesitate
That's why we try to make love and get paid
Take the bad with the good now let's play
(X2)

Hell nah I ain't goin to school
Teacher's a jerk he must think I'm a fool
And all the kids mess with each other always all day
Class warfare up and down the hallways
And if you ain't popular nobody talks to ya unless they
mockin ya
Not even the bus driver or the hall monitor
I might as well climb inside my locker huh?
It's a bad day bad week and a bad month
Don't nobody wanna trade with my bag lunch
Someday I'm gonna be so cool but for now
I got cheap shoes so I keep losin
Girls give no love to a poor man
It's a prison the clock is warden
And it won't get no better when I get home
So I listen to the voice in my headphones it says

Everyday can't be the best day

Do what you can right now, don't hesitate
That's why we try to make love and get paid
Take the bad with the good now let's play
(X2)

Can't dance with an upset stomach
The overdraft notices just kept comin
Somebody broke into the porch and stole a chair
Top of your head stopped growin hair
Broken glass computer crash car won't start and the
tires went flat
Dog got loose brought back a dead cat
Daughter found it and had a panic attack
Plus you ain't had sex in how long?
Afraid to admit that the fires all gone
The better half is talkin about separatin
You wish you could take it back to yesterday
You not alone it's hard as hell
But don't waste no time feelin sorry for self
We'll right here with you through your war
Cause you're the one we make this music for
Now turn it up

Everyday can't be the best day
Do what you can right now, don't hesitate
That's why we try to make love and get paid
Take the bad with the good now let's play
(X2)
