"Tonight's The Night"

Visit "[Tonight's The Night](#)" on MotoLyrics.com

You're baby blue eyes that you promised tonight have
got me in a mess
Why don't you do right and quit try to fight everytime
we get this stress
Your sugar daddy and your money man, well ain't
gonna treat you right
You better do something baby whether wrong or right
Oh baby tonight's the night

They say that love is a wonderfull game and it happens
everyday
Oh why oh why did you pick on me and make things
happen this way
You got stars in one eye and lies in the other. Now
which am I gonna believe
You better do something baby whether wrong or right
Oh baby tonight's the night

They say that love is a wonderfull game and it happens
everyday
Oh why oh why did you pick on me and make things
happen this way
You got stars in one eye and lies in the other. Now
which am I gonna believe
You better do something baby whether wrong or right
Oh baby tonight's the night

You're baby blue eyes that you promised tonight have
got me in a mess
Why don't you do right and quit try to fight everytime
we get this stress
Your sugar daddy and your money man, well ain't
gonna treat you right
You better do something baby whether wrong or right
Oh baby tonight's the night
