Here's a little game called hide and go seek
Put your hands over your eyes and please don't peek
You stay here til I find you
And when I find you baby I'll tell you what to do

Wasn't that good
Wasn't that good
Wasn't that good
I love to play games with you

Here's another game called kissing in the dark
We can play it in my room or over in the park
I'll go turn the lights all out
And when the game is over you know what it's about

Wasn't that good
Wasn't that good
Wasn't that good
I love to play games with you

Here's a little game called hide and go seek
Put your hands over your eyes and please don't peek
You stay here til I find you
And when I find you baby I'll tell you what to do

Baby wasn't that good
Oh honey, wasn't that good
Wasn't that good
I love to play games with you

Wasn't that good
Wasn't that good
Wasn't that good
Oh honey, wasn't that good
Wasn't that good
I love to play games with you
