Excuse me my friend, but is that your pen?
Is it cool if i use it to duel w/ my skeleton?
Is it proper for me to use it to persecute these people?
Is it wrong for me to caress it against my ego?
Can i use a ball point just to make my small points?
Are these mechanical joints anything like hollow
points?
Old fashion #2 when i need that shit quick and steady
But that's assuming i ain't chewed off the eraser tip
already
If i touch a felt tip believe i'm bout to make help (...)
Computer friendly, only 'cause that deadly bitch helps
me spell shit
Scribble for the you, the me and the politicians
Aerosol to the wall, ready to all for all to vision
He wrote it in jail, she wrote it in Braille
I wrote that shit named it, recorded it, i got one for
sale!
If i truly feel i got something to show
I'd pull out a blank sheet of loose-leaf and draw it out in
crayola
I've grown to keep an extra utensil in my sock
And i've been known to market on the sidewalk with
chalk
Most times, i write with a pen, sometimes i write with a
buzz
And if i ever go gold, i must of wrote that shit with
blood
And if i ever go gold, i must of wrote that shit with
blood
And if i ever go gold, i must of wrote that shit with
blood
And if i ever go gold, i must of wrote that shit with
blood

It's all about the penmanship baby,
It's all about the penmanship baby,
Ayo it's all about the penmanship baby,
