I'm set being on my own
'til I harm myself, til my legs unfold
I could never leave my mind
The memories are all behind and you
You know I tried
You could never change my mind

The air was cold when I lost myself and
I'm just like you but I'm someone else and I know
(no matter what)
I know
(no matter what)
And all the bright light I've been in was
The worth I'd do it all again and I know
(no matter what)
I know
(no matter what)

I've set everything away
And we harm ourselves
We throw away
Well if I ever leave my mind
The memories will fade away in time
You know I try, know I tried
Don't change my mind

The air was cold when I lost myself and

I'm just like you but I'm someone else and I know
(no matter what)
I know
(no matter what)
And all the bright light I've been in was
The worth I'd do it all again and I know
(no matter what)
I know
(no matter what)

life, lust, love, fuck
Life (is what we make it)
Lust (is where we are)
Love (never fake it)

Life, lust, love, fuck
Well keep calm and carry on
Keep calm and carry on for me

The air was cold when I lost myself and
I'm just like you but I'm someone else and I know
(no matter what)
I know
(no matter what)
And all the bright light I've been in was
The worth I'd do it all again and I know
(no matter what)
I know
(no matter what)
