You were always somewhere else but here  
In your head, your heart like rain  
And I'm fed with you am I dead to you in vain?  
You were always in my memory  
When the color fades away  
If the sky would fall would you catch it all again?  
And I'm tearing up your photograph  
I'll be burning their remains  
Cause I'm gone  
I got you, well I got you safe

Just say goodbye to me  
With every breath I hope you wish you'd  
Die for me and take away your only want to  
Run away where I can not find you

I am never one to walk away  
From a lie that I've been in  
There's a million hopes  
Spilling out your throat again.  
You've got a pocket full of death threats  
You've got a pocket full of sin  
Am I wrong?  
I got you, I got you  
Safer than you have been

So wave goodbye to me  
With every breath I hope you wish you'd  
Die for me and take away your only want to  
Run away where I can not find you  
(You're way in the way feeling that you're  
Fading away feeling that you'll  
Run away, I'm not the same)

Every little piece somehow of heart is on my sleeve  
right now I know  
Sometimes It's hard to talk about it  
Every little piece somehow of heart is on my sleeve  
right now I know  
Sometimes It's hard to talk about it  
Every little piece somehow of heart is on my sleeve

right now I know  
That I leave to bleed the least

So say goodbye to me  
With every breath I hope you wish you'd  
Die for me and take away your only want to  
Run away where I can not find you  
Just say goodbye to me  
With every breath I hope you wish you'd  
Die for me and take away your only want to  
Run away where I can not find you
