

## Bad Meets Evil

### "Quality Or Quantity"

Offer me eternity, and i'll trade a cup of coffee and a  
dime, looking  
For a handout on behalf of those who have so little  
time, but who  
Wants to live on just 70 cents a day? padding your  
pockets doesn't  
Make this a better place, "cereal and water" is a feast  
for some you  
Say, your price-tag on existence can't cover your  
double face, quality  
Or quantity: a choice you have to make, dipping in the  
icing, bringing  
Home the largest turkey from the field, breaking all the  
piggy banks,  
Scooping up the booty, licking all the right holes,  
bolstering the  
Payroll, why reduce life to a dollar amount per day?  
and why let the  
World think this is the american way? your uneaten  
greens ar a feast  
For some you say, survival and living are concepts you  
can't equate,  
Quality or quantity don't tell me they're the same
