Youve got to quit your little charade
And join the freak parade
Now that your road has been paved
From conception to your grave
There are enormous things to do
Others practices to eschew
To be better than you is impossible to do
But the world wont stop without you!

Your achievements are unsurpassed
You are highly-ordered mass
But you can bet your ass
Your free energy will dissipate
Two billion years thus far
Now mister here you are
An element in a sea of enthalpic organic compounds

Youre only as elegant as your actions let you be
A piece of chaos related phylogenetically
To every living organ system theyre siblings dont you
see
The earth rotates and will revolve without you
constantly
