Wasted children, fixed blank eyes, blood and sweat,
we socialize
Broken homes from which they come, beer-stained
dad, compliant mom.
Fear and love, much despised, replaced by
comfortable lies.
Teenage classic, more cliché, one step further on the
edge of decay.
White trash, 2nd generation, white trash, 2nd
generation,
White trash, 2nd generation, don your crown and
cleanse the nation.
Are you ready to fight for your morality? right wing
allies, white supremacy.
Pretty fascist on the tube draped in red and white and
blue
White trash, 2nd generation, stupid foibles, indignation
Offspring of suburban fright, pearl-white creatures of
the night
White trash, 2nd generation, white trash, 2nd
generation,
White trash, 2nd generation, don your crown and
cleanse the nation.
Stiff blue collar, coat and tie, brand new breeds side by
side.
Christian ethic, right extremes, shoved down our throat
as the american dream.
White trash, 2nd generation, stupid foibles, indignation
Offspring of suburban fright, pearl-white creatures of
the night
White trash, 2nd generation, white trash, 2nd
generation,
White trash, 2nd generation, don your crown and
cleanse the nation.
White trash, 2nd generation, white trash, 2nd
generation,
White trash, 2nd generation, don your crown and
cleanse the nation.
