"Yesterday"

Run, but don't be scared to look behind.
Stop, don't wait too long, make up your mind.
The end is almost here,
The sky, the air, so nice and clear,
The sound of your decay,
And the ringing in the air is the sweet debris of
yesterday.
There, now that you know it's not so bad.
See, the good meet soon for ?
So if you try to enhance,
We don't deserve another chance.
Just laugh along the way,
And kiss your ass goodbye with a shadow dream of
yesterday.
Yesterday, the good old days.
Yesterday, the way we used to play.
Yesterday, it just got worse and worse.
Yesterday, the future's been rehearsed.
Run, but don't be scared to look behind.
Stop, don't wait too long, make up your mind.
The end is almost here,
The sky, the air, so nice and clear,
The sound of your decay,
And the ringing in the air is the sweet debris of
yesterday.
Yesterday.
Yesterday.
