n your world of frenzy chick it's hard to be honest
You cooked your pretty mind on all the trips that you
bought yeah
You're the type of girl that don't get hung on those
things
You're just in to get off and then your off of that scene

What you said to me
You got a right

Everywhere that you are
It's going on
Everything that you do
It's going off
Yeah from me town to Hoxton
From south Bronx to Compton
It's on

Everywhere that you are

You paint world on fire every night
You say that pinks the new black they're buying every
line
Razor sharp stilettos they're the knives of the bitch
She won't look at you once cause she knows your not
rich

What you said to me
In the world of the night
You know I'm tried to make it
You know I tried

Everywhere that you are
It's going on
Everything that you do
It's going off
Yeah from me town to Hoxton
From south Bronx to Compton
It's on

Everywhere that you are

It's going on
Everywhere that you are
It's going off
Yeah from Shang hi to Goa
In Hanoi it blows up
It's on

Temptation you can have it all so why not surrender
Temptation gets you to your fall
Temptation, Temptation, Temptation, Temptation

Everywhere that you are
It's going on
Everything that you do
It's going off
Yeah from me town to Hoxton
From south Bronx to Compton
It's on

Everywhere that you are
It's going on
Everything that you do
It's going off
Yeah from me town to Hoxton
From south Bronx to Compton
It's on
