It might rain just a little
But, yeah we dance in it
Rock to the rhythm
And we put our hands with it
One life to live
So we live it to the fullest
Young and free
Yeah, you know how we do it

Head in the clouds
And the sun shines bright
Hope in your eyes
And it shines that light
Gravity itself couldn't hold you down
Joy inside in the merry go-round

And we bring it right back
Positive energy magnetic attraction
So we spread that love
Now everybody show it now
Do it all together now

Give me up some love
Everybody needs contagious love
And I'll be happy with just enough
Let me get that contagious love like

It was smiles over frowns
And we laugh without reason
Live out loud
Cause our hearts still beating
Sing on the elevator
Watch how people stare
Capture reaction the moment's
Still there

These are the times
That we live for
So do it big make it count
Reel it in slow
Cause the clock don't stop
Time won't stand still
You're still every moment that you can feel

You ain't gotta worry
About a thing
It'll be alright
And it'll be alright
You ain't gotta worry
