Mmm...

You know the difference between you and me?

Everything.

Do you know the reason why I left?

I was bored.

I'm sorry it just takes a little more

To hold my attention

Lets go back to the beginning

Girl meets boy everything is looking sweet

Time goes by and my eyes wander free

It's all my fault

I'm the one to blame

Shame on me and my man-eating game

I can truly say

That it's not you it's me

You can't cage a bird

When they're made to be free

I'm looking all around

Breaking hearts don't make me happy

I won't give you excuses

Can't change my colors

It's just useless

Ya got me looking for the next best thing

Got, got mt looking for the next best thing

Got me looking for the next best thing

Got, got mt looking for the next best thing

Maybe one day the day the best will hold around

But til that day comes

I'll be searching around,

Nice girls always finish last

The guy wants a bitch

So they feel like a man

I can truly say that baby, it's on me

You can't fly a kite

When you ain't got a string

I'm looking all around me

Breaking hearts don't make me happy
I won't give you excuses
Can't change my colors
It's just useless
Ya got me looking for the next best thing
Got, got me looking for the next best thing
Got me looking for the next best thing
Got, got me looking for the next best thing

It's a matter of a opinion
If I lost or if I'm winning
I'm a sucker for the sinning
Can I get a witness?
I may be a little selfish
Baby, girls are players too
It's just always very different
When the tables turn on you

I'm looking all around
Breaking hearts don't make me happy
I won't give you excuses
Can't change my colors
It's just useless
Ya got me looking for the next best thing
Got, got me looking for the next best thing
Got me looking for the next best thing
Got, got me looking for the next best thing

Got me looking...
Yeah oh ho
Ye yea yeahhh
