"A Sweet Song"

Sing me a sweet song where I can find comfort inside
Meet me halfway my dear, we'll build a bridge of our
own kind

'Never let go honey', you say this to me all the time
But trust me when I say I'll always be here by your side

The stars we find light up the sky, we'll stay up till
sunrise
Stay real close by the sea it gets cold, we'll have fun
chasing tides
We'll have fun chasing tides

Stay awake count sheep I'll make sure the lights on for
you
Breathe your air, run my fingers through your hair
We'll both share the same moon
We both share the same moon
