Hey, yeah, yeah

Oh why, oh why are you crying.
How many times
only say good-bye.
Oh why, your heart is dying.
All this tears
They will never dry

Can't you see he is lying to you.
You will see that he is a fool.
Hey, hey
Anything is possible my baby.
Every night a kiss away your pain.
Oh, anything is possible but maybe
Oh tomorrow love will never be the same.
Hoh, hoh, yeah
Oh, why you follow a rainbow.
Take your time, where you go from here.
Oh why there is a tomorrow.

Strong enough, oh to cry a tear
Can't you see how beautiful you are.
Can't you see you're shining like a sign.
Yeah, yeah
Anything is possible my baby.
Every night a kiss away your pain
Anything is possible my baby.
Tomorrow love will never be the same.
Anything is possible my baby.
Every night a kiss away your pain
No, no, no.
Anything is possible my baby.
Oh tomorrow love will never be the same.
Oh tomorrow love will never be the same.
