Album: Take You Chance (2003)

Anytime you want me

Oh Anytime you want me - Oh I'll be there

Anytime you need me - Oh I'll take care

Oh Anytime you want me - I'm your friend

Anytime you need me - Don't let it end

Pretty baby, sooner or later, Oh we are all alone

Pretty baby, Oh Don't hurt me, you are everything I Own

But if your heart will leave, there's no place for me my
baby

But there's one thing you should know

Pretty baby, if you miss me, Love will always find a
friend

Pretty baby, if you kiss me, I'm feeling stronger every
day

If you'll stay it feels like paradise

If you want my heart, Oh don't tear apart

There's a place for us my baby

And I know that time will show
