Album: Take your Chance (2003)

Oh baby, yes I'm sorry

Oh that's no way to say goodbye

No baby, Oh don't worry,

I believe I am to young to die

Oh is leaving me is easy

I'm the biggest fool of all

Oh is leaving me is easy,

Oh I lost behind the wall why does a man has to be
strong,

If he needs your call

Refrain:

Girl, I need you, just in my heart more then words can
say

Girl, I miss you , right from the star since you went
away

If you leave me you'll take my breath away

Oh Baby, Oh we're walking,

Togheter through a lonely night

Oh Baby, Oh we're talking,

You can run bout you can't hide

If you found another love things ain't what they used to
be

If you found another love,

I'm living with a memory why does a man has to be
strong,

If you set him free

Refrain
