Hanging around in all the right bars
Could have taken this too far
Searching for the latest creep show
New bands are welcome oh know
This one man
That sells the new beer
Won't drink to quick
Won't make nothing
Sell sell sell the unit shifter
You won't take advantage of us

Is it the next big thing better than everything?
We've seen it all before
Are you the coolest band?
Yes we were so unplanned we've seen it all before
Get yr checkbooks on the table
Money talks, it's able
Blind us with the latest jargon
By this point most are too far gone
We know how to break the routine
Don't matter pressures of scene
Sell sell sell the unit shiter
You won't take advantage of us

You're trying to be someone else
You're trying to be someone else
But yourself
