She was a little bit shorter than me
a little bit older than me
but when she start noticing me
it was everything I thought it would be
now I was better more better
a whole lot of pressure made me keep it from the world
I was getting pleasure cheating on my girl
sneaking and creeping and hardly ever speaking
till I started visiting your crib on a weekend
I remember when you sat down and learned all my
songs
and in the background we made love all night long
never thought i'll catch a feeling that will be this strong
something that feels so right it can't be wrong
I was too busy thinking about my daily buzz
not recognizing that what we have maybe love
I can take it back to the way we was
you know before it was my lady cause

[Chorus]

we were friends
then we were lovers
now we cant stand seeing each other
what am I gonna do
what did I do to you
to make it set with me
you said it must be true

getting high telling lies
what made the relationship die
maybe it will never live
I gave what I could give
when I couldn't just take care of you at the crib
I was doing a thing in ..
when I hadn't no bread that's when you backed off
the love that I thought i've found and got lost
and everything that your boy .. like a bad cough
yeah I am mad for but she is too
say you turn cause you didn't want to see it through

try to keep it cool but you act like you didn't have sens
left me a message and I ain't called you back since

I am doing black flips thinking over
you got me so messed up I had to drink to be sober
and the world youit's over
but it was the only pan I ever start to
baby that's why I love you

[Chorus]

we were friends
then we were lovers
now we cant stand seeing each other
what am I gonna do
what did I do to you
to make it set with me
you said it must be true

sitting back and I am thinking about it
we should
get it back but I really doubt it
cause there aren't enough words
I can say for the lies i've told
cause Mary J she don't wanna cry no more
plus I get the feeling
she don't . move to the next
cause she don't turn calls or respond to my text
I don't know what I did to make you act like that
listen I just want my best fiend back holler

[Chorus]

we were friends
then we were lovers
now we cant stand seeing each other
what am I gonna do
what did I do to you
to make it set with me
you said it must be true
