Yea uh, that Miami base  
To them San Franquise  
Thought you could play me baby, no not at all  
She's Annie Hall, Annie Hall

Sunlight, moonlight, star through sol  
He tried to play me out, no not at all  
Like a yoyo I walked his dog  
To my heartbeat yes he will crawl  
Move that thing like thumb thumb cardiac  
Til I attack then he will fall  
I don't answer phones when my lover calls  
All strung up with no guitar  
It's when he kept begging me  
No I'm not a box but I do box steadily  
Went around the service when he never got the best of  
me  
Just like a toy, oh boy better cherish me

That Miami base  
Oh boy better cherish me  
To them San Franquise  
Thought you could play me baby, no not at all  
She's Annie Hall, Annie Hall

Deal no deal when you deal with me  
Our love connection Chuck Wolverie  
All the ways in fortune now we in jeopardy  
So pressure lock, they box no Hemmy  
Turn the date in game to the newly wed pair  
An amazing race to the Hollywood square  
So please OG cuz that's not fair  
Then you can find out who wants to be a millionaire  
Truth, dare, double dare, promise to repeat

Playin late hopscotch in the middle of the street  
Let's make a deal and if it goes down  
If the price is right then come on down  
Come on down  
Then come on down  
Then come on down

Watch out man, what does it mean?  
Thought you could play me baby, no not at all  
You couldn't phase me with my back on the wall  
She set me up and knew just how I would fall  
She's Annie Hall, Annie Hall

She's not like every deal, she's not like the fam  
She rides me like I'm falling soft to the plan  
She run the turner kit, a yellow dress  
But don't tell my real deal  
She's not like the feel  
She's not like the what?  
She's not like the what?  
She hangs with others  
But she knows we see fair

You tried to play me baby, no not at all  
You couldn't phase me with my back on the wall  
She set me up and knew just how I would fall  
She's Annie Hall, Annie Hall  
Annie Hall, Annie Hall

Sometimes I need her  
And I believed her  
Sometimes I need her  
Not like the last  
Tell me those  
Yea

You tried to play me baby, no not at all  
You couldn't phase me with my back on the wall  
She set me up and knew just how I would fall  
She's Annie Hall, Annie Hall  
Annie Hall, Annie Hall  
She's Annie Hall, Annie Hall

You tried to play me baby, no not at all  
She couldn't break me with a black stickin saw  
You tried to phase me baby, but you're not that far  
Misses Annie
