"Electric"

Visit "[Electric](#)" on MotoLyrics.com

Ooh whoa

A sensitivity in every part of me
Like a shock on my skin
Every time you walk in
It's electricity
Like a beat in my heart (in my heart)
And now I'm thinking about you
Now I'm thinking about you
Now I'm thinking about you
Oh yeah

Boy, I don't really know nothing about you
But I'm excited just to be around you
I'm taken by the aura that surrounds you
I feel electric, I feel electric

You give me butterflies
You give me butterflies
You give me butterflies
You give me butterflies

You got me wired to every part of you
You came, hit the switch
Ooh, you make me electric
I'm connected to you
Like a beat in my heart (in my heart)
And now I'm thinking about you (oh yeah)
Now I'm thinking about you
You got me thinking about you

Boy, I don't really know nothing about you
But I'm excited just to be around you
I'm taken by the aura that surrounds you
I feel electric, I feel electric

You give me butterflies
You give me butterflies
You give me butterflies
You give me butterflies

Ooh whoa
Oh yeah yeah oh yeah

Boy, I don't really know nothing about you
But I'm excited just to be around you
I'm taken by the aura that surrounds you
I feel electric, I feel electric

You give me butterflies
You give me butterflies
You give me butterflies (you give me butterflies)
You give me butterflies (oh yeah)

Boy, I don't really know nothing about you
But I'm excited just to be around you
I'm taken by the aura that surrounds you
I feel electric, I feel electric

You give me butterflies
You give me butterflies
