Do you think its fear
Or do you feel I'm wrong
I don't think you'll come back to me
What is this you've made
Trying to make me out to be
But I guess you'll see
That its not me

You take control
You take my soul
And God you make everything alright
You take control
You take my soul
And God you make everything alright

This is how I feel
I feel I can't go on without you right there by my side
Are they black and white
The feeling that I feel
For centuries we've felt this way
So I pray
