I wanna know this thing for sure  
I wanna know this thing exactly how it was before  
cause all I know is based on a true story  
and all my no"s are everything but history

you'd better believe this  
it burns from the inside  
you'd better believe this  
till hope goes low

and if I ever have been cruel  
and if I ever have been like a bit misunderstood  
please touch my nose and start with a new story  
just be so close like never in our history

you'd better believe this  
it burns from the inside  
you'd better believe this  
till hope goes low
