### Verse I

I wanna run, I wanna hide  
I wanna disappear right before your eyes  
I wanna hear, I wanna taste  
I wanna feel alive so bad, can't hardly wait

### Chorus

If you are an angel that's been coming around  
I say yea  
If you are the devil that's been burning one down  
I say Yea  
Please release me

### Verse II

I can't relax, I can't let go

Feels like I'm ticking and in seconds I will blow  
I can't move on, I can't stay home  
Feel like I'm heading down this path unknown

(Repeat Chorus)

### Verse III

Enter my mind, enter my soul  
Enter my heart that broke in two and make it whole  
Turn back time, turn back days  
Turn back the clock and make it all go away

(Repeat Chorus)

### Outro

Ah listen to me
