Well I'm taken back by what just happened
Held up, caught up on our conversation
And I'm not sure what you're sayin
I'm still not sure what you're sayin

Well she said, she said it's just an awkward situation
And please excuse my hard pressed determination
But I don't think that's right
Well I don't think that's right

That you never call me back, never call me back
Well you're always holding back, always holding on to
All you say you are, and all you say you were

Yeah, oh
Uh, oh

Well it's Wednesday night, and you can't stop staring
Playing Black Balloon down at the town tavern
And I'm not sure what you're singin
Cause it's not what I'm singin

You left the show and I stopped my song
Chased you down, and pulled out my phone
And yelled "Maria! What's your number?
Maria! What's your number?"

But you never call me back, never call me back
Well you're always holding back, always holding on to
All you say you are, and all you say you were
But you're trying so hard, but are you really trying hard
To capture what you're made of?
To capture what you're made of?
Oh yeah

Oh, and the makeup hides who you really are
And the makeup hides who you really are
And the makeup hides who you really are
Oh, and the makeup, the makeup, the makeup hides
who you really are

But you never call me back, never call me back

Well you're always holding back, always holding on to
All you say you are, and all you say you were
But you're trying so hard, but are you really trying hard
To capture what you're made of?
To capture what you're made of?
Oh yeah

Just say
Who you really are
Just say
Who you really are
