Do you know you could  
Find me anytime you wanted?  
Baby, something's right here  
Heart is my face  
Head is in eight places

You know you could find me anytime  
How about now? Living off guard  
Caught in between, trying too hard

Waitin' and seein', heart is my face  
Head is in eight places again  
Bones ache mistakes  
We might have to make

Yes, we're all in the eyes  
So loud  
And we're all falling in or falling out

I wish, I could find you  
Anytime I wanted  
Baby, something's wrong here

Heart is my face  
Head is in eight places always  
I wish, I could find you anytime

And we're all in the eyes  
So loud  
And we're scared to fall in  
'Cause we fell out

Any time you wanted
