It's true it's a lie  
Ain't it over  
Just you here tonight  
And I'll be over  
It's not for me to have her  
It's not for me to have her, no  
It's not on me, just you here tonight  
And I'll be over  
It's not on me  
It's true, it's a lie  
And I went home  
It's not for me to have her  
It's not for me to have her, no  
Only to be over my head  
Only to be over my head  
Only to be over my head  
Only to be over my head  
Only to be over my head  
Only to be over my head
