(chorus)

What you doing later can i hit you up  
What you doing later can i hit you up  
What you doing later can i hit you up  
Let me get your number, hit your line then its bout to go  
down

Verse 1

And you can punch it in my phone  
I promise ima hit you up when i make it home  
Light skinned  
Yella bone  
Dark skinned  
Carmel tone  
I don't care  
Long as you grown  
Hit my line  
I'll make you moan  
Thats when i i seen you out window shopping  
You called me over cuz you aint really feel like stopping  
Say you live close but on your own attending college  
Exchanged numbers on the slide, cuz all my homies  
watching  
Uh, so we parted ways in a daze  
Turned around for a glimpse of your picture frame  
I hit her up then she claimed  
She heard of me, she know my name  
She like my style, i flow insame  
All these girls, they know the same

(hook)

From the 773 to the 312  
And the 708 ima call you too

From the 773 to the 630  
Put your number in my phone  
I'll call you when i make it home like

(chorus)

What you doing later can i hit you up  
What you doing later can i hit you up  
What you doing later can i hit you up

Let me get your number, hit your line then its bout to go  
down  
X2

Or i can hit you on the text  
Im bbm, whatever suites you best  
Cuz i know all these girls just be making moves  
And they know i make em too, forget them faking  
dudes  
I know they just be playing rude  
I put them in they favorite mood  
Call em up and make it cool  
Then hotter than jamaican food  
Cels dupri break all the rules  
Her and her dude are happy married  
But i still hit her up, called her from my blackberry  
Cuz that's just how the chi town playing go  
We don't care about ya man, all the players know  
I get em every where i go  
They like my style, they like my flow  
They hit me up to talk some more  
All in different area codes

(hook)
