Daydreamin
wishing of things I can't be in
visions of a better life, no more playing him
cuz I know dem girls soon gon b craving him
scrolling through they ipod, who they favorite, him
so jus keep my cd bumpin
808's thumping
now who said I wasn't nothing
huh? And you can blame my idols for the visions
cuz now I know I belong on that television
live well, get money is the only mission
so now I'm out on a hook like I'm fukin fishing
clear ya mind, don't even look, jus fukn listen
and I'ma tell yal straight up I'm wat u fukn missing
so make way the prince is this way
I'm nunthin like the rest, Cels is not fake
and those that dnt get it, simply just hate
but before you give opinions away

Hook
I just want you to trust In me
I just want you to believe in me

I'm feelin like the odd 1 out
cuz when yal thinking bout education

I'm thinking bout a different destination
and sum say I'm wrong for dat
but little do they kno I was born to rap
so wat the problem is
to my acknowledgement
I don't need a scholarship
cuz I'm on some smarter shit
so quit it with the arguing
and you aint gotta like it but respect
neglect it and regret it
cuz I kno where I'm headed
get the fukn message?
I'm like a beverage
to them niggas I am so refreshing
I'm on another level so tell me who just pulled the

leverage
my status high like a nigga chilling on Mt. Everest
I can't settle for lower levels below A average
so, I'm just hoping that you see that
stay away from lame niggas kicking feedback
cuz they don't get me so all they do is hate
but before you give opinions away

Hook
I just want you to trust In me
I just want you to believe in me
X2
