I waited patiently for your arrival  
Well, I'm so nervous I can't see a ????  
But when I see your eyes and your perfect smile  
The feeling comes on stronger again

The little things you do always make me grin  
Attention to detail never wearing thin  
But when you come close, my heart starts to race  
And it happens all over again

I said  
Oh, what a rush  
Is this feeling love?  
And with every day  
We're getting closer now

Alright!

The nights never end as we follow the shore  
It's these moments with you that I'll always adore  
Together, we'll grow, the world passing us by  
And forever I'll be by your side

A night will never count, the lifetime we share  
There's nothing I won't do to show you how I care  
With you at my side, we'll always win  
In the shadow of my heart, you're my deepest sin

I said  
Oh, what a rush  
Is this feeling love?  
And with every day  
We're getting closer now

And if  
All this rush  
Is as feeling as love  
Then I give you my heart  
Along with this vow

Alright!

I said  
(You are the brightest star)  
Oh, what a rush  
(That I have ever seen)  
Is this feeling love?  
And with every day  
We're getting closer now

And if  
(You are the only star)  
All this rush  
(That I will ever see)  
Is as feeling as love  
Then I give you my heart  
Along with this vow

Alright!  
(You are the brightest star)  
Oh, what a rush  
(That I have ever seen)  
Is this feeling love?  
And with every day  
(And you're turning bright for me)  
We're getting closer now

But if  
(You are the only star)  
All this rush  
(That I have will see)  
Is as feeling as love  
Then I give you my heart  
(And you shine just right for me)  
Along with this vow

I said, oh  
(You are the brightest star)  
What a rush  
(That I have ever seen)  
Is this feeling love?  
And with every day  
(And you're turning bright for me)  
We're getting closer now
