I don't want no presents
I don't wanna give... under the tree
As long as is it just me and my baby
Get a piece of heaven every time your hands are all
over me boy
All the Christmas I need I got it right here
So for Christmas eve I only want one thing that's for
you to meet me right
Here
Under the mistletoes under the mistletoes... make it
right there
Under the mistletoes under the mistletoes this
Christmas promise
Under the mistletoe
Even though is snowing baby our love is keeping me
warm
I don't need no fire place when I lay in your arms
It don't need no solid place around here
You are my drama boy baby boy I don't need no toys

So it's Christmas eve I only want one thing
That's for you to meet me right here
Under the mistletoe under the mistletoe... make it right
there
Under the mistletoe under the mistletoe this Christmas
promise
Under the mistletoe
Every holiday I wanna be with you loving you
My wish come true
Every holiday I wanna share with you...
So it's Christmas eve I only want one thing
That's for you to meet me right here
Under the mistletoe under the mistletoe... make it right
there
Under the mistletoe under the mistletoe this Christmas
promise
Under the mistletoe
