"DNA"

Lately, somethin's messin' with my hea-ea-ea-ea
Yeah, it's hard to know what's real and what's prete-e-
e-end

The way I feel I don't have the cure of, cure of
But, one thing I know that I'm sure of, sure of...

I am the one and only
No one, is exactly like me
I am the one and only
Who turned out this way
It's all in my DNA

Do not attempt to copy
I'm on this ride and there's no stoppin' me-e-e-e!

I am the one and only
It's true-ue-ue!

And you're the one and only you!
