The sun goes down
His ghost moves in
if I close my eyes you will feel like him

If you don't mind
Just turn out the light
I wanna feel anything but lonely tonight

(Chorus)
So wreck my heart
Tear me down
Mess me up
Make me come unwound
Tell me lies
In the dark
Come on baby wreck my heart

I've been holding out
Tried to be strong
Now I think it's time that I moved on

I need a tornado
To blow on through
Leave him nothing to come back to

(Chorus)

When the morning comes
You can walk away
No I won't beg for you to stay

(Chorus)
