I could stand here looking at you for a thousand years
And if I could I'd fly to the heavens and meet you there
But this gravity keeps holding me down
So I'll just keep watching you slide thru the summer sky
And it makes me smile while you mingle with the lights
of fire flies
And I don't want to stop this spinning around

Hey I'm getting dizzy now
Falling to the ground
Hey I'm getting teary eyed
Mouth is open wide in wonder, in wonder

Shall we dance from opposite sides of the universe
That we shine all the glory behind our spins and turns
As we orbit our way thru the sky
Is it true you sang with the angels when earth was
made
Now I sing along with your song while the music plays
The harmony is building cause the chorus can't be too
far away

Hey I'm getting dizzy now
Falling to the ground
Hey I'm getting teary eyed
Mouth is open wide in wonder

Hey you looking at me
Tell me what do you see from down there
Hey I'm getting dizzy now
Falling to the ground

Hey I'm getting dizzy now
Falling to the ground
Hey I'm getting teary eyed
Mouth is open wide in wonder, in wonder, in wonder

Hey
In wonder
Hey
In wonder

Hey
In wonder
Hey

This gravity keeps holding me down
