A knot in the brain
A face full of pain
A mind gone insane
All shouting's in vain
It gets even worse
When white coat returns
"A hopeless case, nurse!"
And everything burns

Somewhere in the bedroom
Something's crawling closer
Somehow irrepressible
Trying to overdose ya

Living in a madman's dream
Your consciousness a rapid stream
Hush! And leave his weary head
When he awakes, you might be dead

What else does he need
Than eyes full of greed
While working to feed
A really bad seed?
A try to defy
Is only a try
"Perhaps he will die."
Too weak for a sigh

Somewhere in the bedroom
Something's crawling closer
Somehow irrepressible
Trying to overdose ya

Living in a madman's dream
Your consciousness a rapid stream
Hush! And leave his weary head
When he awakes, you might be dead

A cry in the night
A flash of bright light
A pitiful sight
Alone in a plight

A mental disease
An object to tease
"Redeem me, God, please!"
Falls down on his knees

Somewhere in the bedroom
Something's crawling closer
Somehow irrepressible
Trying to overdose ya

Living in a madman's dream
Your consciousness a rapid stream
Hush! And leave his weary head
When he awakes, you might be dead
