

Coma Beach "Another Song"

Another day has come to its end
Another wish to heaven sent
Another star locked up in a jar
Another sun shot down with a gun
Another hand that hasn't been lent

Congratulations - This life's a hit, this life's a shit
Sweet elevation - Enjoy the show, stop feeling low
Infatuation - Forget your pain and get insane
Ejaculation - Just reach the top and never stop

Another face that makes me feel sick
Another word that cuts to the quick
Another beach just out of reach
Another stroke that makes me choke
Another fool deceived by a trick

Congratulations - This life's a hit, this life's a shit
Sweet elevation - Enjoy the show, stop feeling low
Infatuation - Forget your pain and get insane
Ejaculation - Just reach the top and never stop

Another tear concealed by a fist
Another child that slashes its wrist
Another room filled up with gloom
Another bed turns burning red
Another dream that ceased to exist

Congratulations - This life's a hit, this life's a shit
Sweet elevation - Enjoy the show, stop feeling low
Infatuation - Forget your pain and get insane
Ejaculation - Just reach the top and never ever stop
